TOP FACE!

• GOAL OF THE GAME •

TOP FACE! is a game from 3 to 8 players and is played in several rounds. The 2 packs of 62 cards represents the same faces. The goal is to make the other guess and to guess oneself as many faces as possible.

Cards values are indicated on the back (○) (○○):

• SETUP •

1) Place all **purple cards**, faces up, on the table.

2) Shuffle all **white cards** and place the pile accessible to all players.

Easy mode: remove all cards of one same color from the 2 piles (green, yellow, blue or red).

• HOW TO PLAY ? •

Choose your Game: 1 or 2.

The person dressed with the most colors is the first player: **«the active player»**.

1) The active player draws a white card from the pile and looks at it secretely.

2) He/She imitates the face. The face must remain frozen without accompanying noises or sounds.

3) When a player thinks he has guessed the active player's face, he points the corresponding card on the table, as quick as possible.

Important! Each player has only one choice (two choices with 3 players). If more than one player chooses the same card at the same time, the player whose finger is the most centered on the card wins.

• GAME 1 : CONTEST

Goal : Collect the most points.

- The first player draws a card from the pile, noting the image to himself. He shouts «TOP FACE!» before imitating the face. The other players must guess which card on the table is being imitated.

Easy mode: Each may announce the background color of his card: green, yellow, blue or red.

- If a player guesses the face correctly, the active player keeps the card (1 point). The player who guesses the face gets the card he designated (2 points).
- If no one guesses the face, the card is placed back under the pile.

In both cases, **play moves to the next player clockwise.**

The game is finished when at least one round of the table is completed, and one of the players has accumulated 9 or more points.

The player with the most points is the winner.

• GAME 2 : COMPETITION

Goal : Be the first to discard all your cards. Whoever guesses becomes the active player.

Each player draws 5 white cards.

- The first player tries to make the others guess the first card of his hand.
- Once the card is guessed, the active player places his card into the discard pile face down and **the one who guessed becomes the active player.** The designated purple card remains on the table.
- If no one guessed his card, the active player keeps his cards in hand and play moves to the next player clockwise.

Once a player has no more cards in hand, he wins. Whoever guessed the last card of the winner is second.
