RULES
BUZZY GAMES

• GOAL OF THE GAME •

TOP DANCE ! is a game for 3 to 8 players that is played in several rounds with music. 2 packs of 60 cards represent the same choregraphies. The goal is to make the others guess and to guess oneself as many cards as possible.

• SET UP •

The game is played only standing. Make sure you have enough space around you to be able to dance.

1) Sort round and square cards to form 8 packs of same color backgrounds.

Select the colors with which you will play

depending on the chosen difficulty level:

EASY	NORMAL	HARD
(3 to 4 players)	(3 to 8 players)	(3 to 8 players)
2 Colors	**3 Colors**	**4 Colors**

Place unselected packs of cards in the box.

2) Shuffle the pack of round cards and spread them out faces up on the table.

3) Shuffle the pack of square cards and place it on the center of the table, face down: **the deck.**

4) Choose the music on which you like dancing. We propose an ideal playlist on the back cover. But all rhythmic musics can be played.

Example of a set up for an easy 2-player game (2 Colors).

• HOW TO PLAY? •

Choose your game mode: Challenge 1, 2 or 3.

The person dressed with the most colors is the first player. He becomes **«the Dancer»**.

1) He starts the music of his choice and draws a card from the deck. He looks at it secretly and memorizes the number.

2) He announces the background color of the card and dances by repeating the movement indicated, on the rhythm of the music.

3) The other players try to find, as fast as possible, the corresponding card on the table.

4) As soon as a player thinks he guessed the card, **he points at it and announces its number** so that the Dancer can validate or not.

Warning! Only one card can be pointed out by players. (2 cards for a 3 players' game). If more than one player point at the good card at the same time, the player whose finger is the most centered on the card wins.

• CHALLENGE 1: CONTEST

Goal: Collect the most cards

Players become «Dancer» the one after the other clockwise.

- Once the card is guessed, the player gets the card he designated face down. The Dancer keeps its card face down.
- If no one guesses the card, the Dancer's card is placed back under the deck.

In both cases, **play moves to the next Dancer clockwise.**

At the end of the music, **the player with the most cards (round and square) wins. He chooses the music of the next challenge.** In case of ex-aequo, the one who has the most round cards wins.

• CHALLENGE 2: COLLECTIVE

Goal: Guess altogether a maximum of cards during the music time.

Place the deck in front of the Dancer on a table edge. Choose a music that lasts about 3:30 min.

- Once the card is guessed, the Dancer places his card into a discard pile face down. The designated round card remains on the table.
- If no player has guessed the card, he places it in the discard pile face up.

In both cases, **play moves to the next Dancer clockwise.** All players shift one place around the table to become the Dancer the one after the other.

At the end of the music, **count the face down cards from the discard pile to know the level of the group:**

Less than 10	10-20	more than 20
Beginner level	Confirmed level	Expert level

• CHALLENGE 3: COMPETITION

Goal: Be the first to discard all your cards. Whoever guesses becomes the Dancer.

Each player draws 5 square cards.

The Dancer tries to make the other guess the first card from his hand.

- Once the card is guessed, the Dancer places his card into a discard pile face down **and the one who guessed becomes the new Dancer.** The designated round card remains on the table.
- If no one guessed his card, the Dancer keeps his cards in hand and play moves to the next player clockwise.

Once a player has no more cards in hand, he wins. He chooses the song of the next challenge. Whoever guessed the last card of the winner is second.

If the music ends and all players still have cards in hand, the player with the least cards wins.
